

Arboricultural Association Approved Contractors List

An arboricultural contractor more commonly known as a tree surgeon will undertake tree work to a previously agreed specification. A good contractor will provide the client with recommendations for work to be undertaken to trees. The recommendations will be based on the client's requirements. All recommendations should be in accordance with the latest industry best practice which is currently **(British Standard) BS3998:2010 Tree Work-Recommendations**

Before inviting quotations, decide exactly what is required, including disposal of any arising's. It is advisable to obtain more than one quotation; these will normally be free of charge unless further specialist investigation of the tree(s) is required.

Before arranging any works to trees, check with your Local Authority as to whether any of your trees are protected by a **Tree Preservation Order** or to see if your property is within a designated **Conservation Area**. To check if you require consent please phone: **The Landscape Design Team on 0208 937 5247** or email the Tree Officer at lawrence.usherwood@brent.gov.uk
